

Editing Your Guild's Pages

*You will need to have an EK member account that has access to the website's backend (Dashboard) in order to edit a page. If you need to have an account created, please do so at <https://members.eastkingdom.org/newaccount/>. If you need to get access to the Dashboard, please reach out to the Webminister.

1. Log in to the Baronial website at https://carolingia.eastkingdom.org/wp-login.php?loggedout=true&wp_lang=en_US
2. Once logged in, you can either search for your page in the Pages sidebar, or you can go to carolingia.eastkingdom.org, find the page you want to edit there, and click the edit button at the top of the screen.

From the Dashboard

From the Website

3. Once you have opened the editor, you can make changes to the page. Make sure to save your changes!

**Some pages, such as the lists of officers and Order members, are made using plugins and will have to be edited directly within their plugin. Please reach out to the Webminister if you need assistance with that.*
